

Community Health Alliance

Partnership Between the Black Community and the NHS

Engagement Survey

The Community Health Alliance (CHA) has launched an engagement programme to better understand NHS experiences of Black, African, Caribbean and people of mixed heritage that includes Black identity, living in Derby and Derbyshire.

This includes this survey, as well as community-led engagement activities.

We will use what we learn to create a Community Health Alliance Action Plan. The CHA will then work with the NHS and other partners to co-produce actions and improvements based on what communities tell us.

Your voice matters. Together, we can help create fairer, more inclusive health and care services for everyone.

About the survey.

All survey answers are anonymous.

If you have any questions or need assistance, please email ddicb.engagement@nhs.net

The closing date for this survey is 18 October 2026.
